SAINT-GOBAIN ACQUIRES SIMTEK FENCE

Saint-Gobain, through its North American subsidiary CertainTeed Corporation, is acquiring the assets of SimTek Fence, Inc. Founded in 2007, SimTek is an industry innovator of fence products that complement the Siding portfolio within Saint-Gobain's Exterior Products.

SimTek's product line includes its Ecostone simulated-stone fence system and the Ashland Collection of wood grain fence panels. This acquisition brings together two highly talented teams, CertainTeed and SimTek, that will expand the knowledge base, energize product development efforts and continue building CertainTeed as an innovative North American brand in exterior solutions.

This acquisition is in line with Saint-Gobain's strategy to consolidate its leadership positions and to develop innovative niches.

The acquisition includes a single manufacturing location in the USA (Utah), a distribution center (Pennsylvania) and a total of 75 employees.
