

SAINT-GOBAIN TO REINFORCE ITS SUPPLY CHAIN FOR ROOFING AND PLASTERBOARD IN NORTH AMERICA WITH THE ACQUISITION OF A GLASS FIBER PLANT

Saint-Gobain has entered into a definitive agreement to acquire a glass fiber plant in the United States located in Lexington, North Carolina.

This plant has been a longstanding supplier for Saint-Gobain CertainTeed in the United States. It produces high-quality materials used to manufacture glass mat, a key component to produce roofing shingles and high-performance plasterboards such as Saint-Gobain's innovative Glasroc® X moisture-resistant reinforced plasterboard for external applications.

This acquisition will **reinforce Saint-Gobain's supply chain and competitiveness** to support its local business model and further **strengthen the innovative and differentiated offer of the Group**, by insourcing key value-added components. Together with the recent inauguration of Saint-Gobain's state-of-the-art glass mat plant in Oxford, North Carolina (United States), this investment will **further strengthen the Group's leadership in light construction in North America**.

The transaction is expected to close on July 31, 2026.

About Saint-Gobain
