

Radomes, ceramic coatings in turbines, cockpit and window glazing

Seals, quartz fibers, seals, bearings and composite materials

Waterproofing solutions for bridge decks
protective coatings for concrete, concrete repair mortar and grouting, structural bonding

High performance concrete admixtures

Structural sealing for concrete works

Thermal insulated glazing, lightweight glazing, films, antireflective glass partitions, heated windshields, bearings, technical insulation, adhesive tapes

High-friction surfacing and line marking for roads

HUD technology

Surface solutions and ceramics for the construction industry and for a wide variety of markets such as the glass, metallurgical, automotive, energy and pharmaceutical industries

Waterproofing solutions for tunnels, injections for concrete repair

Waterproofing membranes for flat, cool and green roofs, liquid applied membranes for balconies and terraces, weather barriers

High performance concrete admixtures

Waterproofing mortars for basement, waterproofing membranes for foundation, solutions for screed and self leveling compound for floor preparation, mortars for swimming pool watertightness
